BHUBEZI PROJECTS
YOUR STRENGTH IS IN OUR PRIDE

COMPANY PROFILE

Our Objective

To be a preferred supplier through Quality Service to a selected client base.

Our Mission

To be a low cost producer with an emphasis on high quality and on time delivery.

ABOUT US

Founded in May 2004, Imbabala Contractors (Pty) Limited are a turn-key project management construction business. With over two decades of trading experience, we deliver comprehensive turnkey solutions, including civil works, structural steel and platework, mechanical installations, and piping supply and installation. Our end-to-end project management services ensure seamless execution, covering planning, shop detailing, fabrication, corrosion protection, logistics management and construction.

Our clientele includes key industry leaders such as Sasol (Sasolburg and Secunda), Woods plc, Hatch, SNC Lavalin, Consol Glass, Murray & Roberts, Lycopodium, MHPS SA, Binvic, Aurex, Bonatti, Fuchs, and DRA.

We are experienced and capable of delivering on your project requirements, irrespective of size or complexity. In 2022, we strengthened our capabilities by joining forces with Bhubezi Projects (Pty) Ltd, further solidifying our commitment to excellence. Partner with us for innovative, reliable, and efficient project delivery.

CONSTRUCTION AND MAINTENANCE

Our highly qualified personnel are fully equipped with all of the plant, equipment and resources required to fulfil the contracts for which we tender, as well as the small to large construction projects that we professionally manage.

The focus of Imbabala Contractors is to provide their clients with a one stop business solution for all its structural steel, plate work and civil & building works requirements. We will take a project from design stage through to final hand over.

Our Service Offering:

- Project Management of the contract
- Quality assurance & Quality Control Management
- Management of all procurement activities i.e. Suppliers & Sub-contractors
- Detailing of workshop fabrication drawings
- Fabrication of corrosion protection through allied companies
- All logistics from dispatch to final delivery, both locally and internationally
- Construction of the works on-site
 - ⇒ Civil works
 - ⇒ Steel erection
 - ⇒ Mechanical installation
 - ⇒ Piping
- Final hand-over

Fabricated Structural Steel and Plate Work:

Imbabala has established firm relationships with Fabricators of repute. Each Fabricator has been carefully audited in order to ensure that they comply with our high quality standards, Further to this, Imbabala employs its own, experienced and well trained QC officers in order to ensure that final products are compliant with the contractual specifications, drawings and client requirements.

The Erection of Structural Steel:

Our in-house structural erection teams have through years of experience collective skills in all aspects regarding site management, safety management, erection methodology, and complex rigging. These include general to complex structures and buildings, machinery such as Stackers and Reclaimers and maintenance Shutdowns.

FACILITIES

Structural and Plate Class Fabrication

- 14 000m² under cover 5 Bays & 1 Paint Bay
- 1 off sandblasting area
- 22 Overhead Cranes – 5T to 25 Ton – 11m under hook
- 120 Employees to support
- Structural and conveyor 680 tpm.
- 600tpm repetitive platework e.g. CIL tanks.
- 150tpm chute / bin class platework
- Entire Facility Under Solar and Backup Generators
- Nightshift will add 60% additional capacity

Yard

- Storage facility
- Facility for trial assembly

WORKSHOP AND EQUIPMENT / LOGISTICS

Equipment & In-house Material Prep

- Peddinghaus CNC Beam Drill Line
- Ficep Gemini Plate Drilling and Plasma Cutting Machine
- Ficep CNC Angle Crop Punch and Stamp
- Lindt High Definition Plasma
- Trumpf Laser Plate Cutter
- ESAB Submerged Arc Boom Welder
- Various automated submerged arc welders
- 2 Double Side Plate bevelling machines
- 6 Bandsaws

Logistics capacity

- 42000 tons dispatched
- Total of 2334 trucks

72 units of 22 tons each, offsite preassembled Modules transported using Self-propelled modular transporter (SPMT)

Construction Equipment

- Mobile cranes: 1 x 55 ton
1 x 50 ton
1 x 25 ton
4 x 20 ton
1 x 15 ton
2 x 10 ton
- 5 Telehandlers
- 8 Cherry Pickers
- 1 Pick & Carry Crane

SERVICE OFFERING

Based upon the specific project requirements we have access to a database of experienced and known personnel that will be accessed depending on the skill set required by the specific construction job.

Structural Steel & Sheeting

- All Plant buildings and support structures

Civil Works

- Construction
- Maintenance

Mechanical

- All mechanical works for Plants.

Platework

- Bins
- Chutes
- Hoppers

Piping

- Carbon steel
- Stainless steel
- HDPE

Corrosion Protection & Lining

- Platework
- Piping

Mechanical Lift

- Mechanical item installation

Safety, Health and Environmental Policy

The company considers its employees to be its most valuable asset and undertakes to safeguard, as far as possible all employees and the public at large from injury or damage to health arising from any of the operations associated with its business.

We operate in strict compliance with the South Africa's Occupational Health and Safety act 85 of 1993, and the construction regulations 2014. We are accredited to the Nosa 5 star system.

Quality Policy

Imbabala is totally committed to achieving excellence in engineering, procurement, fabrication, installation & commissioning.

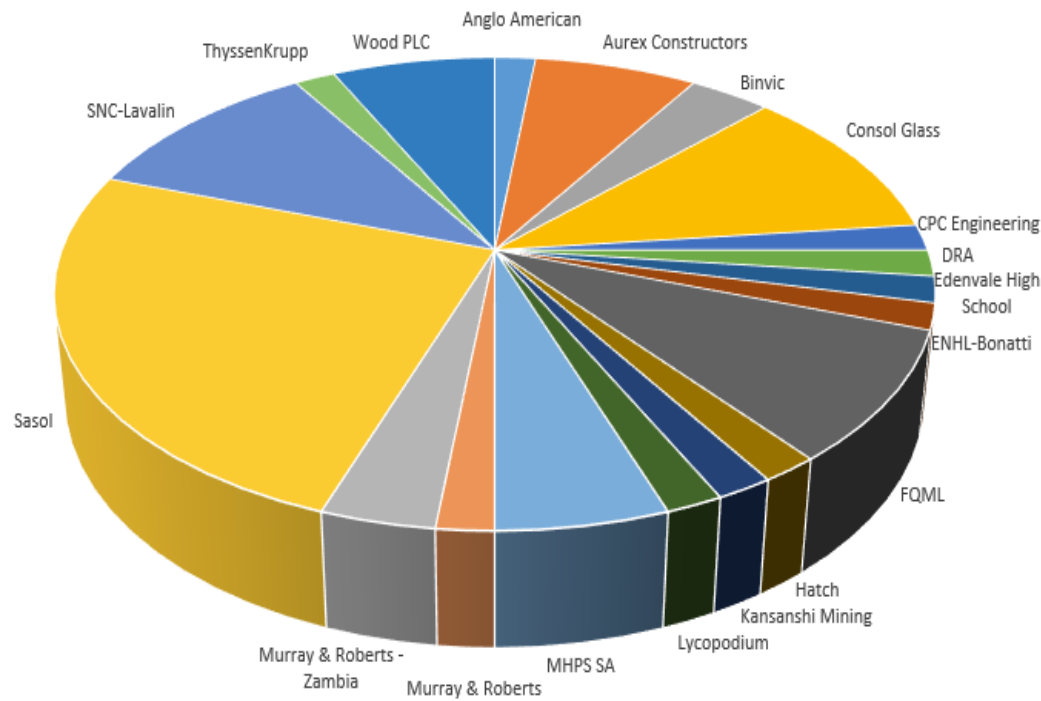

We are certified to ISO 9001:2015 Quality management systems.

SUSTAINABILITY

Imbabala reflects the South African demographics of its company structure. It will continuously improve the ratio with the employment and training of people representing all the nations of South Africa.

Imbabala is committed to Broad-Based Black Economic Empowerment (“BBBEE”) and has obtained a B-BBEE level 2 rating. We adhere to the provisions of the Broad-Based Black Economic Empowerment Act No. 53 of 2003 and uphold the principles outlined in the Codes of Good Practice on BBBEE and the Construction Sector Charter.

COMPLETED PROJECTS

SASOL

- Sasol Nitro
- Sasolburg- Wax plant 1 -3
- C3 Expansion project
- 88 KV plant
- Secunda Fine ash dam
- Secunda – CTF Cooling Towers
- Caustic Soda Plant refurbishment
- Secunda – Incinerator Unit 052&252
- Secunda – Nitro Dam OBL Pipe Rack
- LP Steam Line
- Tank Farm Loading Area Upgrade – Pipe Gantry
- Salt Store Refurbishment
- Sasolburg Salt Store - Bays 1,2 and 5 BOQ
- Sasol Sasolburg - Caustic Soda Refurbishment

Wood PLC

- Installation of Tarpaulins
- Sasol - Ammonia Tank Material Protection
- Sasol - Biosludge Project Secunda - Trial Excavations and Geotechnical Investigation
- Biosludge - steelwork

CONSOL

- W4 Furnace Rebuild Project – Wadeville Factory
- B2 Rebuild Project – Bellville Factory
- Wadeville W4 Furnace repair
- Clayville – C2 Furnace repairs
- Clayville – Batch Bins
- Clayville Furnace Rebuild

FQML

- Kansanshi – Belt Splicing Workshop
- Kansanshi – LV Workshop
- Kansanshi – Blister Area
- Sentinel – Pebble Handling – Chutes
- Sulphide CPS – Area 33 Tanks

MHPS SA

- Kusile Power Station – Pipe Supports

DRA

- Fuchs Structural steel and Mechanical & Piping Isando

Aurex Constructors

- Aurex Secunda
- Sasol - 40 Bar HP steam line Isolation Project
- Sasol - Fine Ash Dam A East Pipe Supports
- Sasol - Fine Ash Dam 6 Feedbox

SNC-Lavalin

- Secunda - DMR
- Balama Graphite
- Sasol – Ash Dam 6 – Pipe Supports
- Chevron – Sox Emissions Project
- Fine Ash Dam 6 – Phase 2
- B-West Pipe Supports
